While typing your personal data, remember that if you're enrolled, your data will be uploaded to university systems. Your personal data will be displayed on students lists and printed on university issued documents. In Polish, proper names (such as school names, city names) are written with a capital letter. Only the first letter should be capital, not all of them. Do not enter Cyrillic or Chinese characters, use Latin transcription instead. Do not put spaces or any other punctuation in document numbers.

Depending on what studies you apply for, you need to add respective certificates concerning your education or other qualifications. In some cases you can add documents without entering all the information about them. However, you might need to fill in the missing data before printing the enrollment application form.
